

Website Updates

October 12, 2017

- Clients now have the ability to see Client Packaging and DM Packaging - dedicated inventory levels on the DMI Logistics website.

June 7, 2017

- On the Freight Options page, in the Freight Account Combo Box, the name associated with the Freight Account has been added to the Combo Box entries. This will assist users who have multiple freight accounts to be able to tell what each one is for.

April 4, 2017

- The site now handles Oswego as a 5th DC in displays.
- Item Import will now work even if you don't include a column for Oswego. It will just add the item to Oswego in non-stock status.
